APAMAN Co., Ltd.

Notice of Free Housing for Victims of the Earthquake in Turkey

A major earthquake in south-eastern Turkey has caused widespread damage. We would like to express our deepest sympathies to those affected by the disaster.

International support has been extended in response to this situation, with Japan and other countries dispatching emergency relief teams.

The APAMAN Group is offering vacant properties managed by us to disaster victims who have evacuated to Japan. These properties will be available free of charge for a short period. In addition, from the perspective of humanitarian aid, we have started collecting donations from APAMAN SHOP member companies and APAMAN Group employees.

For more information on the free provision of housing, please contact:
